

Information Leaflet

Sadaqah Jaariyah

A Masjid is at the heart of any local Muslim community. It provides a place for worshippers to pray, as well as serving as a hub for educational programmes and other everyday services. The role of the masjid is to help people learn more about Islam and to nurture their moral and spiritual development.

Frequently Asked Questions

Is feedback given for this project?

Yes, feedback is provided in the form of images and videos both during construction and upon completion.

How long does it take?

Our estimated time of completion for each masjid is 10 – 12 months.

The availability of resources can vary from country to country, which can affect the construction timeline. Additionally, adverse weather conditions, such as heavy rainfall, extreme heat, or storms, can delay construction activities, especially in countries with unpredictable or harsh climates.

How is the location chosen for the Masjid?

Our teams on the ground carry out comprehensive due diligence with the help of community leaders and local elders, who are familiar with areas of greatest demand, such as when a large Muslim population exists but the nearest masjid is far away.

Who owns the land?

The masjid is built on land that has either been donated and made waqf by a well-wisher or allocated by the government for religious purposes, depending on the country.

How is the masjid maintained? Will it not get abandoned over time?

Our teams on the ground ensure the masjid remains well-maintained and continues to serve the community effectively. The maintenance is typically managed by the local community, masjid leaders, and/or with support from One Nation, depending on the country.

Can I contribute for the maintenance and upkeep of the masjid?

Yes, donors are more than welcome to contribute towards their masjid in any way or form.

Can I donate towards extras after the masjid has been built?

Yes, extras can be booked in even after the masjid has been constructed.

Can Zakat money be used for the Masjid Construction?

No. Only Sadaqah and Lillah money can be used.

Can I visit the country to see the Masjid?

Yes, of course. Please get in touch for more details on info@onenationuk.org.
